

Abbaye de Fontfroide

Presentation and Philosophy :

At the heart of an exceptional landscape protected by the hills of Corbières, the wines of Fontfroide bear within them the secrets of 1000 years of history. The vineyard has been developed around this jewel of Romanesque architecture: the Cistercian abbey implanted in Cathar land. First raised to provide each monk with the daily ration recommended by the rule of St. Benedict, its wines gradually became imbued with the values of the men who produced it: the traditional work of the vine, sharing in the welcome and , of course, mysticism,

In 2018, the arrival of the director of exploitation Cyrille Mariscal makes it possible to make excellence the new ambition of the wines of Fontfroide. With more requirements in the plot selection, an evolution programmed with respect for nature and life and the desire to embody with humility and respect the values of the Abbey
